N2-20050

2.0ch 50W

At KRATOR, we're on a mission to transform the landscape of consumer audio and gaming peripherals. That delivers both aesthetic design and precision-driven performance.

N2-20050 2.0ch 50W

N2-20050 is the latest 3-way Hi-Fi wood speaker system with 50 watts RMS audio output. With this 3-way design, N2-20050 uses Hi-Fi crossover technology that makes each speaker unit respond to high, middle and low frequency respective.

N2-20050 integrates all sounds into the perfect enveloping effects around the listener with magnificent balance, vivid and richer quality. The middle driver uses the 2.5" close frame speaker unit to deliver more accurate sound performance for vocal and most instruments from 500Hz to 7,000Hz frequency. The lower 4" woofer is for long and deep bass less than 500Hz frequency without distraction. For personal sound preference, just adjust the Bass and Treble control.

There are two audio inputs with two RCA and one 3.5mm sockets: RCA input on the back for connection to PC/TV/DVD player/Game consoles ; 3.5mm socket on the side for priority music transiting with your iPod, iPhone and any MP3 player.

N2-20050

2.0ch 50W

-Feature-

- ① All wood enclosure, using 9mm thickness MDF board, which delivers best resonance
- ② Three-way speaker units assure accurate sound quality
- ③ 4 inch and 2.5 inch unit wool mixed paper core drivers with reinforced bass performance
- ④ Separate 4 inch unit driver, 2.5 inch and 1 inch tweeter create full-spectrum audio experiences
- ⑤ Bullet-head design on 4 inch and 2.5inch drivers provide pointing precision of each sound
- ⑥ Extra 3.5mm stereo line-in for connecting to an iPod or MP3 player
- ⑦ Extremely low-noise Hi-Fi circuit design
- ⑧ Adjustable Volume, Bass and Treble control provides the most convenience
- ⑨ Professional quality performance crossover

Selling Point

Three-way, full-range spectrum audio performance

① The unique bullet-head design directs full-range 4 inch wool mixed paper driver with copious midrange and powerful bass. The 2.5 inch driver brings you abundant music experiences. Besides, another 1 inch tweeter driver creates crispy highs and provides precious music positioning. Three-way design separates low resonance from midrange and high voice, which delivers incredible listening experiences.

50 Watts R.M.S. output powerful sound effect

② Delivering crisp, clean high frequencies so vocals, details come through with brilliant clarity. Above depends on a separate 1 inch tweeter. The 2.5 inch midrange driver and another custom-engineered full-spectrum 4" wool mixed paper driver create seriously heavy bass and abundant mid voice.

Ultra convenience built within your fingertips

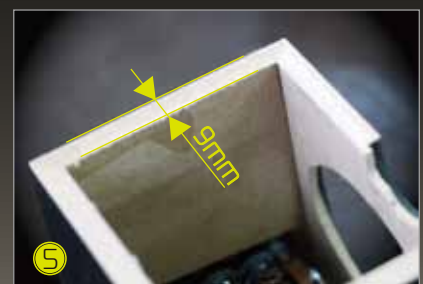

③ Volume, Bass and Treble controls are on the side of the speaker. An extra 3.5mm stereo line-in jack is right nearby, too.

Striking contemporary Design

④ Compact, wood body speakers make a striking visual statement. The steel brush costing front cover reveals bold spirits with intrepid character.

Reinforced 9mm MDF wood box design

⑤ All wood enclosure, using 9mm thickness MDF board, which delivers best resonance. Hand-made wood box is crafted with excellent quality and intensity, which presents the best listening experiences.
