Make Multiple Copies of Your CF /SD / Micro SD Cards or USB Drives In Minutes

The CF, SD, Micro SD, and USB duplicator easily and accurately copies cards without the need of a computer. Advanced *Asynchronous* Duplication Mode allows each channel to operate independently so there is no need to wait for duplication to start or finish at the same time. Unique *Source Analysis* function analyzes the content on the master and intelligently copies either the data or/and music to speed up copy time. Fast reliable and convenient, CF, SD, Micro SD, USB Duplicators are your best companion.

Features

- Standalone turnkey solution; no computer required
- Supports Synchronous and Asynchronous duplicating modes
- Unique Source Analysis function
- No warm-up or cool-down required
- User-friendly interface and simple operation
- Real-time display of detailed information on LCD screen
- Supports all file formats, file size, and card/drive capacity
- High-speed transfer rate up to 2 GB/min*
- Copy & compare function ensures successful and accurate copies

Asynchronous Duplication

Each channel independently loads, unloads, and copies.
