

## Rack Mountable, Cascadable HDMI UTP Extender 1x4 Splitter

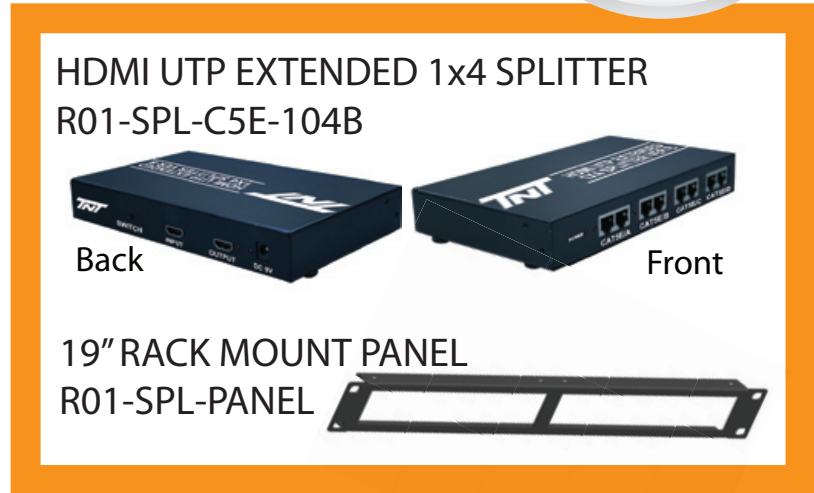

### DESCRIPTION:

The HDMI UTP Extender extends the HDTV signal up to 150 feet away from the HDTV source using two Cat5/5e/6 cables. It provides greater flexibility and options when integrating several home theater components. It can be used in order to correct and compensate for the long run cables that cause the impairments.

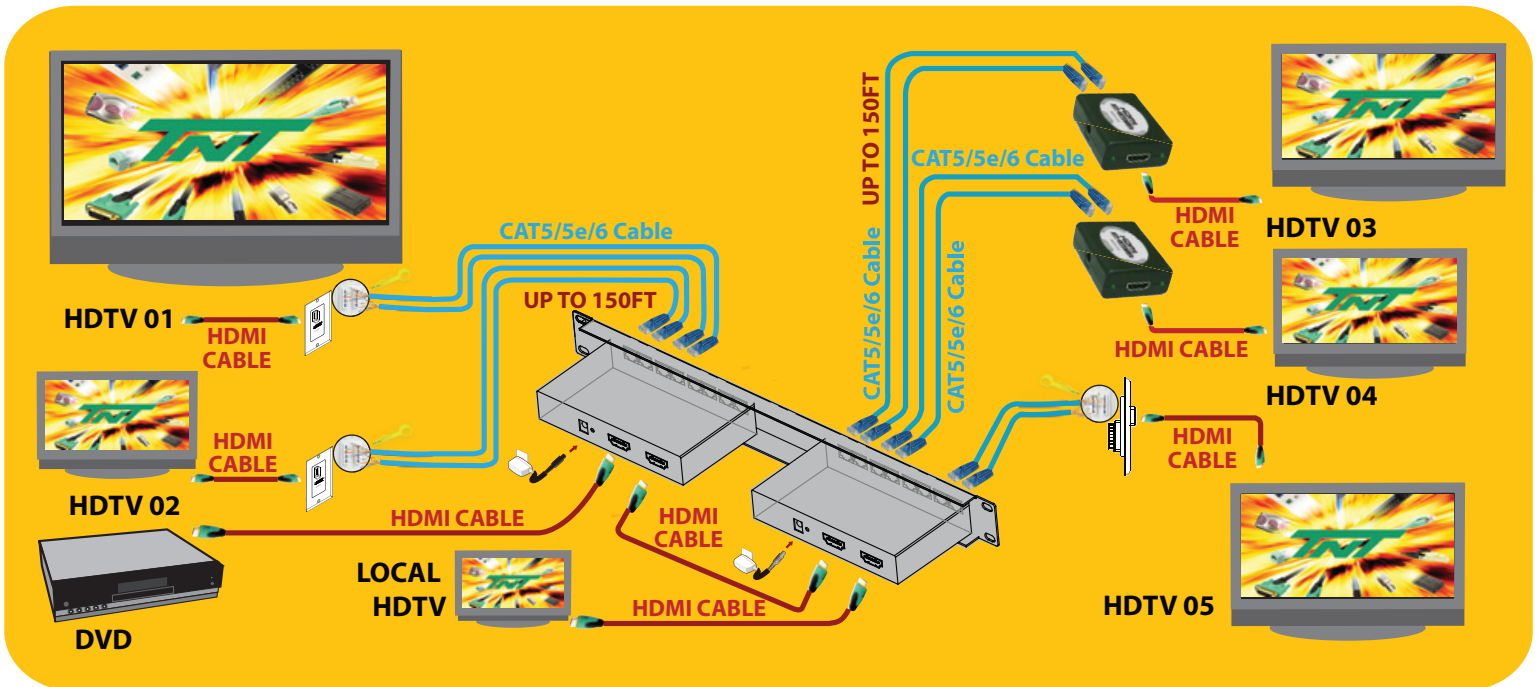

### FEATURES:

- Fully automatic equalization up to 40dB, no system control required
- Extend high definition displays up to 150 feet by UTP Cable from the source
- Eliminate equipment noise in the viewing environment
- Support 480p, 720p, 1080i, 1080p resolutions
- HDMI and HDCP compliant
- Cable skew compensation improvement
- Cost saving for plenum cable request application
- Allow to use HDMI cable to directly cascade to next splitter without lost HDMI signal strength

# HDMI™

HIGH-DEFINITION MULTIMEDIA INTERFACE

PART NUMBER	DESCRIPTION
